

March 13, 1973

these up so that you will know whats going on because, here a short time back someone got up here and said we didn't know there was a rule change, we didn't know that this was going to take place. I'm merely am putting you on notice and please take it in that spirit because thats in which we give it to you and I assure you that everytime a conflict or a decision comes up thats stopping that chair to make because of people on the floor taking exception to it, your going to hear it from me, out of, on the floor of this Legislature.

SPEAKER: Do we have any other business on the desk?

CLERK: Mr. President we have a series of reports.

SPEAKER: Read your reports.

CLERK: Clerk read reports.

SPEAKER: Are there objections? Hearing none, so ordered.

CLERK: Reads, committee meetings.

SPEAKER: Chair recognizes Senator Warner. Senator Nore would you turn off your pa, your white light. Thank-you.

WARNER: Mr. President these are two Bills, one of which, the first one which the clerk referred to would strike section in the present law which prohibits an alien from receiving a Teachers Certificate. There has been some court cases around the country had similar provisions which were thrown out. There is a pending case apparently in Nebraska on the same basis, at in visiting the Attorney Generals office, he felt that the present law could not be held up, in court and that we should strike from the provisions the restriction relative to an alien being eligible for a Teachers Certificate. I can give you the specific example that brought it about. There is a an alien who does have a Teachers Certificate in the State, who does not wish to take out Naturalization papers because of some inheritance problems of his native country and a but he could continue to teach. He's well qualified. I do not believe that Bill needs a hearing. In visiting with the Chairman Exec., Board, this Bill introduced it could be placed directly on General File. The second Bill, is one which would implement the requirement of the 1971 session, relative to the Technical Colleges which would require the Legislature to place those counties which did not vote to be a part of a Technical College into a appropriate district during the 1973 session, there are 25 counties which did not indicate a preference. This Bill would take care of it, would service a vehicle for this. The Bill was drafted on a 5 area concept, 5 districts rather. There was a maximum of 8 authorized, there is obviously controversy as to whether it should be 8 or 5. I'm not going to get in to that argument in the introduction. It can obviously be, will be discussed at a public hearing. If this Bill is introduced, I would also will request a suspension of rules to hold a hearing on the 20th a, so that it can be expedited.

SPEAKER: Any further discussion of the motion? Any further discussion? Starting introduction to the Bills? Senator Warner any closing? Fine and dandy. Question is should the rules be suspended and that Bills introduced. All those in favor will vote aye. All those opposed will vote no. Senator Warner is asking for a suspension of the rules in order to have the Bills introduced. Chair would observe that that does take 30 votes under the rules of the Legislature. 2 Education Bills. Have you all voted? Clerk will record.
